Barbara,

I would like to talk with you about what we might do to start closing the open-endedness of the consultation with LDF. I keep getting asked the same question for purposes of TCOTs. I think we should propose something to LCD management and then have it discussed with the tribe.

I would appreciate any advice you have.

Sherry

Any changes made once the TCOTS record has been published is limited to the TCA

Okay.

This is what I am attempting to add:

8/28/17

After the acting Regional Administrator Bob Kaplan met with President Wildcat on August 15, 2017, EPA agreed to host a August 28, 2017 technical meeting. That meeting occurred via conference call. The agenda covered an overview of site conditions, purpose of an interim measure, key features of the two interim measures considered for the site (excavation and air sparging/soil vapor extraction), and pilot testing.

Swamped right now --- how about I call you tomorrow morning?

Thanks, Ella

Ella,

I can get into TCOTs but I'm not sure how to add additional engagements. I think I should add to recent meetings (one a meeting in LDF between President Wildcat and a 8/28/17 Technical meeting) to the engagement list. How do you do that?

Sherry
